

POPRC-9/6: Guidance on alternatives to perfluorooctane sulfonic acid, its salts, perfluorooctane sulfonyl fluoride and their related chemicals

The Persistent Organic Pollutants Review Committee

1. *Endorses* the revised guidance on alternatives to perfluorooctane sulfonic acid, its salts, perfluorooctane sulfonyl fluoride and their related chemicals as amended at its ninth meeting;¹
2. *Requests* the Secretariat to make the revised guidance available to parties and observers;
3. *Decides* to review the guidance on alternatives to perfluorooctane sulfonic acid, its salts and perfluorooctane sulfonyl fluoride and their related chemicals at its tenth meeting, taking into account the outcomes of the assessment of alternatives by the Committee in accordance with decision POPRC-9/5 and the information contained in the technical paper on alternatives to perfluorooctane sulfonic acid, its salts and perfluorooctane sulfonyl fluoride and their related chemicals in open applications.²
