1. Jamaica will be allowed to import into Belize and deploy two fishing vessels to undertake in joint venture with Belizean Fishing Cooperative(s), at least one being from the southern region of Belize, the rational and efficient exploitation of the fin-fish off-shore in the deep sea (greater than 75 ft

2. Jamaica will import one vessel which will be involved in the harvesting of shrimp in the southern waters of Belize in joint venture with a fishing cooperative in the South;
