

POPRC-9/2: Hexachlorobutadiene

The Persistent Organic Pollutants Review Committee,

Having concluded in decision POPRC-7/3 that hexachlorobutadiene meets the criteria set out in Annex D to the Stockholm Convention on Persistent Organic Pollutants,

Having evaluated the risk profile for hexachlorobutadiene adopted by the Committee at its eighth meeting,¹

Having concluded in decision POPRC-8/2 that hexachlorobutadiene is likely, as a result of its long-range environmental transport, to lead to significant adverse human health and environmental effects such that global action is warranted,

Having completed the risk management evaluation for hexachlorobutadiene in accordance with paragraph 7 (a) of Article 8 of the Stockholm Convention,

1. *Adopts* the risk management evaluation for hexachlorobutadiene;²
2. *Decides*, in accordance with paragraph 9 of Article 8 of the Convention, to recommend to the Conference of the Parties that it consider listing hexachlorobutadiene in Annexes A and C to the Convention.
